

#green is great

Environmental commitment

GROUP AND BUSINESS LINES
Support entities in implementing their environmental strategies and developing our environmental culture.

BUSINESS LINES AND BUSINESS UNITS
Implement an annual action plan aimed at reducing the environmental impacts of each Business Line, tailored by each Business Unit.

WORK SITES
Apply these action plans on each site.

Our businesses contribute to the transformation of cities and territories; thus, reducing the environmental impacts of our activities is a moral obligation for the sustainable development of our companies. To achieve this, we concentrate our efforts on preserving natural resources, managing and recycling waste, saving energy and reducing our greenhouse gas emissions. These challenges are being addressed by all Soletanche Freyssinet employees as a central part of their activities, each playing a role in this shared goal.
